Aluminium Ute Hard Lids

BUILT TOUGH TO WORK AND PLAY AS HARD AS YOU DO!

STANDARD FLAT TOP

Features Include:

- Designed to fit with your existing sports bar or an optional Airplex sports bar or without any sports bar
- Super-Strong aluminium construction
- *Load to 200kg*
- Heavy duty 5 way bracing system
- Designed & Manufactured in New Zealand
- Easy release and lock
- Weather seals
- Gas stay lift operation
- Optional Interior LED Light (with auto shut-off)
- Secure / lockable
- Fully customizable with lots of options:
 - Sports Bar (Stainless, black, or we can usually fit your supplied bar)
 - Black powder-coat option
 - Side Rails - Smooth black roof rails
 - Track system, to allow install of track mount roof racks
 - Lashing rings, tie-down eyes
 - Central Locking option for most models

TO SUIT SPORTS BAR

Strong alloy checker plate lids specifically designed for each make and model of ute. Tough enough to load it with all your work gear and weekend toys. Available with a range of optional track systems and roof rails & roof racks to carry your load.

Exceptional strength and style.

Manufactured right here in New Zealand to New Zealand standards.

Load on top to an impressive load of 200kg

Rolling Ute Lids

K type (with widened side for aftermarket sports bar)

F type (compatible with original sail plane / spoiler)

Y type (apply to utes without original sports bar, can only install with customised bar)

- Airplex Rolling, Lockable Hard Lid
- Lockable
- Most models available in manual operation or remote electric
- Weatherproof
- Strong durable lightweight aluminium construction
- Side channels for integrating roof rack rails
- Sleek black powder-coated finish
- Open/close or use part open
- Easy to carry your load secured out of sight
- Roll open for easy access and to carry larger loads
- If installed with roof rack cross bar, the weight capacity is approx. 150kg

Y type

Double-Cab Canopy

The Airplex SteelTop® is an entirely new generation of canopies that offer a range of benefits vastly superior to the conventional plastic and fiberglass ute canopy and include an impressive list of standard features.

FEATURES INCLUDE:

- Made from steel - just like your ute
- Central locking, synchronized to your existing key fob
- Integrated roof rails (100kg dynamic load, 200kg static)
- Baked Paint System, Colour coded
- Complete interior lining, just like your cab, helps to reduce condensation
- Interior light
- Rear window demister
- Optional tinted slide windows - available at additional cost

SMARTCAP[®] Double-Cab Canopy

Forged from 409 grade automotive stainless steel, the SmartCap canopy is arguably the strongest ute canopy ever designed. Featuring a moving load rating of 150kg and a static load rating of 300kg, this set up is ready to handle your next job or adventure.

EVO Sport SMARTCAP Canopy

- Forged in stainless steel
- Matte black paint
- Huge side gullwing doors with sliding vent windows
- Rear brake light
- Filtered, positive pressure air vent
- Universal integrated roof rails
- Front cab slider window
- Easy removal
- Ask us about side window

Tri-Fold Covers

The first truly lockable vinyl tri-fold hard cover

- Available for most late model utes.
- Lockable (when tailgate locked)
- Tough, smooth vinyl exterior
- Solid ABS interior (can't cut like standard soft covers) - No water pooling!
- Quick, easy clamp on install
- Fold back if carrying loads that extend tray height
- This product is designed to be fitted to standard factory ute tray.
- If fitting to tray with a bed liner, you may need to use part LIK808
- Ask us for a solution if you want to retain your sports bar.

Soft Tonneau Covers

- Sleek Design, Smooth Modern Appearance
- Hidden clamp & rail system
- UV stabilised vinyl
- Simply Roll it up and clip it back to secure soft cover
- Standard install requires no drilling for most models
- 'No Drill' Installation applies to all standard flush sided double-cab well-side decks
- Clean Lines, no more ugly bungee straps and hooks common with other soft tonneau covers
- Roll Bar, Tub-Rack or Cab Protector? = Modification required, for installation at our Auckland or Christchurch locations. Some drilling may be required, will depend on make and style of vehicle, roll bar or cab protector *extra charges apply*
- Increase Security - Out of sight, out of mind, conceal contents from view

Fibreglass Ute Lids

Superior Style & Design

Hard Lid

(40 degree or full lift options)

Hard Lid w/ Sports Bar

(40 degree or full lift options)

Smooth finish, painted hard lids are available for most late model utes. These offer a smooth exterior finish to complement your vehicle. Colour coding is also available. Most models are available with integrated sports bar and also offer the option of the unique Airplex 'Dual-Action' 2-way opening mechanism to allow carrying of larger loads that are not possible with conventional hard lids. It can be safely locked at full height when required.

2-way (full lift)

Single (40 degree)

Standard features include:

- Strong double skin fibreglass
- Single lock/release.
- Colour Matched to ute paint
- Secure. Lockable
- 40 degree option - Gas Strut allowing 40 degree lift
- 2-Way option - Gas Strut and spring arm to allow full lift
- Smooth interior lining.
- Single handle/lock release system

Note: These lids are usually held in limited stock. If your lid is not in stock in the correct colour, it may be available to be pre-ordered or repainted at additional cost.

Sports Bars

Up-Spec your ute with a sports bar that's attractive and practical.

Our sports bars (aka roll bars) are a way to add an eye catching and personalised touch to your vehicle. Beef up your ute or enhance your workhorse with a quality sports bar.

- **Stainless steel construction**
- **Black powder-coated option available**
- **Spotlight & LED light bar mount points**
- **Installation bolt kit included**

Spotlight mount

All Airplex Sports bars are fitted with mounting points for easy installation of spotlights for when you need extra light whilst on duty. These are discrete front mount flush tags that easily allow you to mount an LED light bar or spotlights.

Easy DIY installation

Install yourself or have our experienced tradesmen mount it in your ute with our full installation service. The standard bolt kit supplied allows easy fitment to standard factory ute tray. If you have an over rail style liner, we can supply special additional fasteners (professional install recommended)

Available for most ute makes & models

Nudge Bars

POLISHED STAINLESS STEEL

**BLACK POWDER-COATED
STAINLESS STEEL**

Enhance the look of your vehicle while helping to protect the front end from nudges, minor scrapes and scratches that all hardworking vehicles are in danger from on roads, construction sites and other drivers.

Airplex have a range of nudge bars to help protect the front of your vehicle.

FEATURES:

- Robust and generous in size - 3" profile
- Airbag certified
- Spotlight mounts (most models)
- Vehicle specific
- Black powder-coat option available
- Stylish - enhance the look of your vehicle
- Full fitting kit supplied
- 'H' rack only available on select vehicles

NUDGE BAR & H-RACK COMBO

Winch Bars - Front and Rear

- Airbag / Winch compatible
- Aerial Mount
- Parker / Indicator included
- A-Frame triple loop design
- Tough polyurethane bumpers
- Driving light mount included
- Steel construction
- Winch compatible, we can supply and install winches too!

The Ironman Deluxe Commercial Winch Bull Bar

Combining the strength and practicality of the Ironman Commercial Bull Bar, featured with the driving light package as used in the Ironman Protector Bull Bar.

Providing the ultimate in style and protection, this popular combination is engineered to please and protect.

Every Ironman 4x4 bull bar is carefully crafted from premium grade materials and components to deliver the most comprehensive frontal protection and styling available.

Every Ironman 4x4 Bull Bar is carefully modeled using precision 3D vehicle scanning techniques to achieve optimal cosmetic design whilst providing maximum vehicle collision protection.

Tow Bars & Wiring Looms

Towbars usually come in one of three styles:

Sample image, square
hitch type (removeable)

Sample Image of
a Bolt-on Style

3 Basic styles are:

- Square Hitch
- Bolt-on Tongue
- Fixed Tongue (weld-on)

More info:

- All max-rated towing capacity
- Specifically made to suit your vehicle
- Wiring Looms are sold separately

Wiring Looms:

- Vehicle specific tow bar wiring kits available for most vehicles.
- Suitable for CAN-Bus, LED lights and has a weatherproof trailer connector.
- Plug and play for most vehicles available.
- Call us if you cannot find one listed under your vehicle and we will find a solution for you

**Installation service available at
our Auckland and Christchurch
Locations**

Side Steps / Running Boards

Airplex have various options available; flat aluminium, stainless tube or powder coated black in several styles:

- Alloy side step using traditional flat step
- Stainless steel in an oval shape with an insert tread
- Black powder-coat option also available in either style
- Heavy duty 'rock slider' style steps available for a limited range of vehicles too
- Available in sizes to fit double cabs and some single or extra/king cab vehicles.

STRONG AND DURABLE SIDE STEPS

Custom fitted to each vehicle, the side step is heavy duty, chassis mounted for increased strength and protection. In most cases drilling is not required.

ADDED PROTECTION FOR YOUR VEHICLE

Not only do side steps give the vehicle a commanding presence on the road, they protect the side of your car from stone chips, scratches and light side impact accidents. With the largest range at Airplex, you have so many options to get the perfect style for your vehicle and use

Tub Rack

Tub-Rack can be mounted:

- Directly to the well-sides of your ute
- To your OEM sail-plane
- On the top of your alloy hard lid or rolling lid

You have the option of using RR201 by itself or get 2 pairs of the RR201 and join them together with the RR201-SB (as indicated in bottom left hand photo).

RHINO-RACK

Airplex is an authorised supplier and installer for Rhino Rack roof racks

UTE BEDLINER

The Airplex bed liner protects your ute tray from damage when loading & unloading cargo and helps stop your cargo from sliding around while driving. All of our liners are custom moulded to suit each make and model of ute.

BEDLINER - 5 PIECE LINER

Features

- Non Skid Floor
- Easy Assembly and Installation – 5 Pieces - interlocking
- Lightweight bed liner
- Durable polyethylene material
- High-Density Polyethylene (HDPE)
- Protects your Ute bed from scratches and spills
- 100% UV stable surface

Rail caps can be fitted with under-rail bed liners to protect your tail gate & side rails

BEDLINER - One Piece 'Drop-in' style liner

Features

- Non Skid Floor
- Drop-in Assembly and Installation
- Lightweight bed liner
- High-Density Polyethylene (HDPE)
- Protects your Ute bed from scratches and spills
- 100% UV stable surface
- Maintenance free – Non-skid textured surface

All bedliners are supplied with fitting kits

Well-Side Rail Caps

Rail Caps offer protection for the top of the well-sides. Often a vehicle may be supplied with no protection on the top of the well-sides where you often reach over or rest a load. Rail Caps can be fitted with most under rail style liners or on vehicles with no liner at all.

The Rail Caps are manufactured from the same tough material as the bed-liner.

Bushwacker - 1 Piece

Bushwacker - 2 Piece

- 1 piece - for the tailgate only
- 2 piece - for the two sides only
- 3 piece - for the two sides and also the tailgate too

Rail caps are attached with 3m® adhesive tape

Bed Mats & Floor Mats

An Airplex Rubber Bed Mat is designed to protect your ute tray/bed and the load you are carrying. Moulded from heavy duty rubber.

Moulded heavy duty mat

Custom cut heavy duty mat

- Prevent scratches
- Reduce dents & dings
- Stop your load sliding around
- Additional grip for dogs or other animals
- Safer transportation of your load
- Can be fitted with or without a bedliner

Moulded mats are available for most model utes

Bring in your ute, van or trailer and we can make a custom mat to suit

Slide Trays

Heavy Duty Bed Slide.

This universal sliding ute tray can be fitted to your ute tray to allow easy access to your gear.

BS197: 1410mm x W 1250mm

- Easy to install
- Strong construction
- Heavy Duty 400kg load rated
- Approx. 1000mm travel (total slide movement)
- Quick-Grip non skid top on platform
- Smooth running bearings
- Locks at three locations. In out and midway.
- Installation hardware supplied
- Strong up stand sides
- Tie-down loops provided to secure your load to the tray
- Easy to install by bolting to the floor of your ute deck

PLEASE CHECK IT WILL FIT IN THE AREA YOU PLAN TO INSTALL BEFORE ORDERING.

(Some Bed-liners and other items can affect clearances)

Light Duty Bed Slide.

This universal sliding ute deck can be fitted to your ute tray to allow easy access.

BS199: 1410mm x W 1250mm

- Easy to install
- Strong construction
- Smooth running bearings
- Locks at three locations. In out and midway.
- Total slide movement 700mm
- Installation hardware supplied
- Supplied as complete kit only.
- Tie-down loops provided to secure your load to the tray

You can install with 'bed-liner' style tray supplied (1270mm x 1270mm) or install the slide unit and attach your own tray/plywood/drawers etc.

Note: the slide unit and the tray are sold together and cannot be sold separately

UNIVERSAL DRAWERS

SLIDING DRAWER SYSTEM - LOW PROFILE - DUAL TOP SLIDE - 1380MM

WING KIT INCLUDED WITH PRODUCT

- BOTH Tops slide (rated for 100kg per side)
- Loading capacity = 100kg / drawer

- Internal felt lining
- Built in tie down points on top
- Ideal for recreational or commercial use
- Suits double cab utes.
- **External dimensions:** L: 1380mm x W: 1000mm x H: 230mm
- **Internal dimensions:** L: 1270mm W: 410 x H: 135mm ea drawer

SLIDING DRAWER SYSTEM - LEFT SIDE, SLIDE TOP - 1300MM

WING KIT SOLD SEPERATELY

- Only LH top Slides (rated for 150kgs on top)
- Constructed from galvanized steel and marine grade carpet
- Total load weight 300kg (150kg on top / 75kg per drawer)
- Internal felt lining
- Built in tie down points on top
- Ideal for recreational or commercial use
- **External Dimensions:** L:1300mm x W:1000mm x H:285mm
- **Internal Dimensions:** L 1240mm x W 425mm x H 180mm

PRO TIP: Add an Airplex Central Locking kit to your ute tailgate so the drawers are automatically locked when your vehicle is locked.

Bed Extender

Available in
black or silver

This product requires assembly

Use facing forward in the tray to:

- Tray/bed divider
- Secure loose items in tray
- Great for securing gas bottle or shopping etc
- Prevents items sliding around the tray

Use facing outward on tailgate:

- Extend the usable area of the tray
- Carry longer loads
- Universal fitment allows installation in most ute beds.
- This product requires some drilling to be installed.

Swing Case

THE PORTABLE, SPACE-SAVING STORAGE SOLUTION

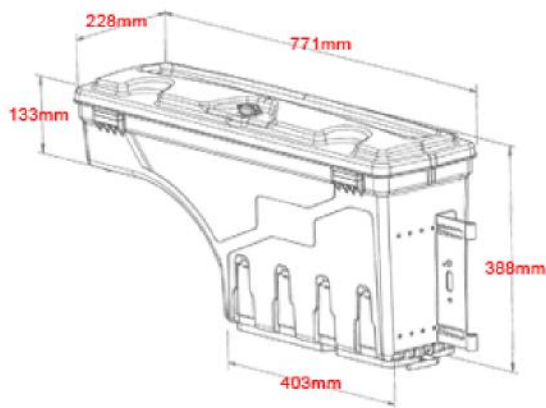

Swings out for easy access to your tools and gear.

Take it with you - detach in seconds to take with you on the worksite, or a convenient storage solution on the go.

Manufactured from durable, light weight ABS plastic.

Available for most late model ute's.

Perfect for storing tools, tie-downs, work and recreational gear.

Lockable with or without a key, the Airplex Swing Case is the perfect accessory to keep your ute's tray organized.

Available for driver and passenger side, or both.

Airplex installation required if fitting to tray with bedliner

Body Trim, Grill, Bonnet Scoops

Airplex offers a massive range of moulded body trims for popular ute makes and models. Use our Fit My Vehicle search to see what items are available for your vehicle.

Fender Flares

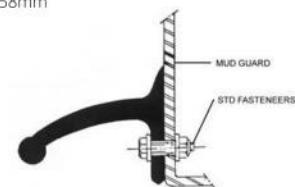

Airplex stocks a range of fender flares for many vehicles. These include both universal style rubber guard extensions and also vehicle specific flared guards. Not only do Airplex Flares look great, they also can help make your vehicle comply with relevant legislation and WOF requirements.

Seat Covers

Heavy Duty Tailor Made Canvas Seat Covers really are the ultimate in interior vehicle seat protection. A **14oz** Heavy Duty Canvas (Heavy Duty Cotton & Polyester blend) provides 100% rot proof and waterproof protection for your vehicle's interior seating - it's virtually indestructible. These heavy duty seat covers are ideal for the rugged lifestyle of commercial vehicles.

Not actual model shown
Generic image showing style
and colour

Features:

- Taylor made, guaranteed to fit
- Sold as 'front row' or 'rear row' packs.
- Made with durable **14oz** Heavy Duty Cotton & Polyester blend
- 100% rot proof and waterproof protection
- Available in Black or Grey
- Separate headrest covers come as standard.
- Maximum Protection: 5 year guarantee: fully guaranteed against faulty materials and workmanship. See packaging insert for full details.
- Split folds & seat belt holes - No worries you'll retain full use and functionality of your seats

Bonnet Guards

**BIGGEST RANGE, NO MINIMUM ORDER QUANTITIES
AND PROUDLY NZ MADE!**

- Manufactured in New Zealand by Airplex.
- Bonnet Guards are Individually styled to suit each make and model of vehicle.
- All our bonnet guards are manufactured using UV stabilised acrylic to add protection to valuable paint and bodywork.
- Most models are easily installed without drilling and are available in clear or dark tint colour.
- Select models are available in 'matte black, 'carbon-fibre look' and chrome finish.

To find a product to suit your vehicle, use our 'FIT MY VEHICLE' search or contact us if you need further assistance.

Headlight Guards

**BIGGEST RANGE, NO MINIMUM ORDER QUANTITIES
AND PROUDLY NZ MADE!**

- Headlight Protectors add style and protection for valuable headlights using custom formed UV stabilised acrylic.
- Headlight guards will extend the life of headlights by protecting them from stones, road debris and general abrasion.
- Even modern polycarbonate lenses need protection from breakage and dulling from abrasion by installing quality Airplex Headlight Guards.
- Headlight guards are simple to fit with no drilling required

All headlight covers are designed to protect your vehicles headlights. All headlight guards are available in clear acrylic. Some are available in tinted and other colours or patterned graphics (depending on make and model of vehicle).

All non-clear headlight covers are designed and sold for showroom and off-road use only. These will need to be removed when your lights are in use.

Check with your local state or country regulations before using them on the road.

Weather Shields

(aka door visors or monsoons)

BIGGEST RANGE & NO MINIMUM ORDER QUANTITIES

AIRPLEX SUPPLIES DOOR WEATHER SHIELDS FOR CAR, 4X4, UTE,
VAN AND TRUCK MODELS

Available in two styles:

Slim-line:

The slim 'sport' visor style is available for *most* new vehicles and some older vehicles.

- Permits fresh air driving
- Enables the driver to have the windows open
- Helps shield from the wind and rain

Traditional:

Most older models are supplied in the traditional NZ larger style 'monsoon' door weather shield.

- Effectively deflects wind & rain
- Supplied with fitting kit and instructions
- No drilling required for installation.

Below are a few sample pictures of Airplex door weather shields.

EVC (iDRIVE) THROTTLE CONTROLLER

UNLEASH THE POWER!

What is the EVC Throttle Controller?

The EVC Throttle Controller is a plug and play throttle controller that gives you complete control over the responsiveness of your vehicle. It does this by providing new points of reference for your throttle mapping, introducing either a sharper or duller throttle curve depending on what mode/setting has been selected.

ECO MODE

ECO mode is designed for economy by reducing the accelerator response time. Also handy when you are on the trails and looking for a bit more throttle control when crawling.

ULTIMATE MODE

Ultimate Mode offers 9 sensitivity levels, this allows the driver to tune the controller to the desired level of sensitivity. Choose level 9 and grip the steering wheel tight or hit level 1 for a gentle smooth acceleration.

AC MODE

Automatic control mode automatically selects the sensitivity level based on pedal pressure. If you are in traffic and accelerating gently the EVC-iDRIVE will automatically choose a reduced level of throttle response.

BASE MODEL

Ultimate mode, Factory mode, Eco mode, Auto Control mode.

EVC-X

Ultimate mode, Factory mode, Eco mode, Auto Control mode.

Ultimate9 mode, Launch mode, Adapt mode, Anti-slip mode, Valet mode, Lock mode,

iOS/ Android App & Bluetooth connectivity available

EASY DIY INSTALL

Lighting

LED LIGHT BARS & SPOT LIGHTS

- Latest CREE LED Technology
- High output LED light bars.
- Efficient and powerful.
- From the tiny 280mm light bar to the awesome 940mm 12,600 raw lumen light bars & other spot & work lights.
- High quality light bars.

FOG LAMPS - FACTORY FIT, OEM STYLE

- Airplex stock a range of fog lamps to fit the original bumper of the vehicle.
- Nissan Navara, Toyota Hilux, Mitsubishi Triton, Holden Rodeo, Isuzu Dmax

FOLDING SOLAR MATS

Tailgate Assist

THE AIRPLEX TAILGATE ASSIST MAKES YOUR DAY EASIER, ON EVERY JOB!

How many times during each day do you open and close your tailgate? 5, 10 maybe 15 times a day?

For commercial use, you have your hands full of heavy equipment, tools and paperwork, balancing it all to open the heavy tailgate. With a Tailgate Assist it makes it all so much easier and lighter.

For the family, it provides easier access to your stuff during all your leisure activities and minimizes the hazards of the heavy tailgate for young children.

Only the Airplex Tailgate Assist does twice the job!

It works with a gas mechanism to take the load as the tailgate is opened. Then a spring-loaded mechanism to take the weight as you close it – the one ute accessory you must have!

Now isn't that how it should be? As new ute's are getting bigger and tougher, the Airplex Tailgate Assist makes the tailgate easier to operate.

Most models are DIY install. We also offer full installation service if required. There is no drilling required to install our tailgate assists. The product uses the existing mount points on the vehicle. Installing a Tailgate Assist does not affect the factory warranty on your vehicle as no modification is required.

Tailgate Assist *with Pro-Lift®*

- THE MOST effective Tailgate Assist on the market
- Gas Stay plus Dual Spring (most models).
- EASY UP & EASY DOWN
- No drilling to install
- Makes tailgate opening and closing, an easy operation
- Makes tailgate safe for all family members
- Gas Stay for hands free slow opening
- Revised spring system for easy close action
- Available on select models

Tailgate Lock

The Tailgate Lock allows you to sync your tailgate with your existing vehicle remote. The unit works by engaging and disengaging your existing handle when your vehicle locks and unlocks.

Giving peace of mind knowing that when your car is locked, so is your tailgate.

The Airplex Tail Lock is the perfect addition to any Ute, with or without an existing barrel lock.

KIT INCLUDES:

- vehicle specific custom brackets
- insulated wiring loom
- factory vehicle plugs (no splicing, soldering or guess work!)
- universal loom plug
- actuator, high power small form built for purpose
- cable ties
- installation instructions, step by step guide

NO DRILL INSTALLATION on most models:

- The beauty of the Airplex Tail Lock is in the design. The unit mounts into factory points so there is no drilling involved for most models.
- Please use our 'Fit My Vehicle' to find the part for your vehicle.
- Additionally the wiring is non-invasive and a breeze following our system steps.
- Our recommended fit time is in under one hour.

KEY FEATURES:

- Syncs with your factory remote
- Hidden non-intrusive design
- Works with your factory proximity remote
- Gives ultimate security for your tub
- DIY Installation, no drilling required

Heavy Truck - Stone Guard

Vehicle specific fitment for all vehicles (truck, bus and light commercials). Manufactured in New Zealand
Supplied throughout New Zealand and exported to OEM and aftermarket

Airplex stone guards offer protection from stones and other road debris. These guards are manufactured in New Zealand from high quality aluminium and steel mesh construction. Provides protection for expensive windscreens.

Stone guards are available in either black powder coat or mill finish colour options.

Superior design features include:

- ADR and LSTA compliant mesh (12mm x 12mm mesh with 1.2mm gauge mesh)
- High quality NZ design and manufacture
- Anti-vibration brackets
- Powder-coated high quality paint finish
- Aluminium components (extrusion, tube and rails) Will not rust.
- Strong and flexible riveted construction

Construction: Extruded rails, galv mesh and riveted end plates. The flexibility of the rivets allows the stone guard to move without fracturing. One piece products are prone to cracking (just like an airplane wing is riveted for maximum durability!). Tried and tested construction over many years has lead to the latest New Generation stone guards. Specify Airplex product to ensure you get the best.

Heavy Truck Sunvisor

TRUCK EXTERIOR SUNVISOR

Airplex design and manufacture a wide range of sunvisors to suit a range of Japanese and international brand trucks, including FUSO, UD, Nissan, Isuzu, Hino, Foton, JAC, etc.

- Sunvisors are made from fibreglass and are individually designed to suit each make and model.
- The Airplex sunvisor is the preferred sunvisor for several leading truck manufacturers.
- Many models are supplied as OEM (original equipment manufacture) by the truck brand in New Zealand and several export markets.
- Designed to integrate with the cab
- Protect driver and cab from sun
- Smooth gel coat finish
- Colour match to original factory truck colour
- Enhance the look of the truck

Heavy Truck Air Deflector & Side Kits

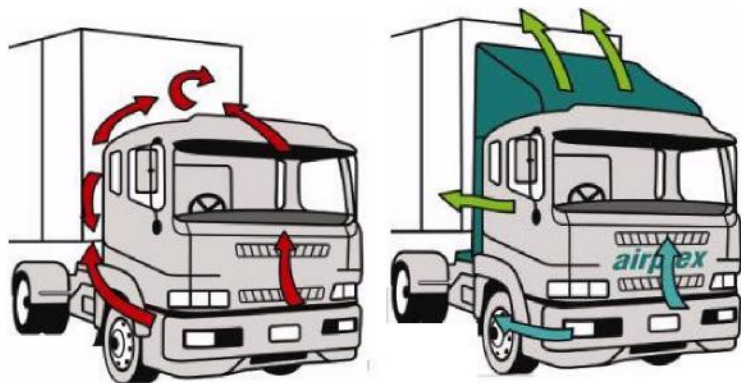

Save Fuel > Think Aerodynamics.

Wind drag matters! Drag is wind resistance and reducing that drag could spell the difference between a profitable run and the break even point. Fuel prices aren't going to decrease anytime soon so it is beneficial to work out every way possible to save fuel costs and that means decreasing drag whenever possible.

Proper truck aerodynamics is one way to save as much as 6%- 20% (as shown by independent - Isuzu and Freightliner studies) on fuel costs. At 100,000 km per year and todays fuel prices that equates to some very large savings in fuel alone. That's real money in your pocket if you are an owner-operator.

GAURANTEED FUEL SAVINGS

- Improve fuel efficiency
- Reduce engine & drive train wear
- Reduce truck maintenance
- Improved stability
- Reduced spray
- Great for sign-writing and advertising space
- Enhance looks and styling with Airplex' smooth modern designs
- Individually styled to suit each model truck

Most models are available with or without side skirts (cab extenders) for optimum aerodynamics and aesthetics

Wheel Trim

For your truck, coach, minibus, van or motorhome

AVAILABLE IN: 15" 16" 17.5" 19.5" 22.5" PROFILES

Our range of trims are manufactured from only the highest grade of stainless steel, meaning they will not rust like cheaper trims which are available on the market. We hold a huge stock in our NZ based warehouse. You will not be disappointed with our vast selection from wheel liners, trim rings and wheel nut covers to our super stylish American simulator jumbo trims and Scandinavian style flat dish trims.

ABOUT US

Airplex Industries Ltd was established in 1982 to manufacture automotive acrylic accessories for the aftermarket & OEM (Original Equipment Manufacture) business. Since then, Airplex has grown to become New Zealand's leading manufacturer and distributor of a wide range of automotive products including ute canopies, nudge bars, bonnet guards, headlight covers, ute hard lids and much more.

Still proudly manufacturing in New Zealand for around 40 years! All phases of production, from tool making, machining and screen printing through to moulding and packaging for our acrylic range are done at the Airplex Auckland, New Zealand premises. The continually increasing acrylic (perspex) product range now includes over 1800 monsoon weather shields, 700 headlight guards and 600 bonnet guards (hood) protectors/bug deflectors as well as a large range of rear deflectors, sunvisors and other auto accessories.
